Editorial

PNS – still sparkling after 60 years.
G. R. Goldberg & C. J. Seal 1–2

Overweight and obesity, a growing concern *(Symposium Proceedings: 9 May 2001)*

Chair: A. Flynn, *University College, Cork, Republic of Ireland*

Overweight, obesity and physical activity levels in Irish adults: evidence from the North/South Ireland Food Consumption Survey.
S. N. McCarthy, M. J. Gibney, A. Flynn & M. B. E. Livingstone for the Irish Universities Nutrition Alliance 3–7

An obesity clinic model.
P. Munnelly & S. Feehan 9–10

Nutritional aspects of food safety *(Symposium Proceedings: 20–22 June 2001)*

Chairs: H. McNulty, *Trinity College, Dublin, Republic of Ireland;* **M. J. Gibney,** *Trinity College;* **J. J. Strain,** *University of Ulster at Coleraine, UK;* **A. Flynn,** *University College, Cork, Republic of Ireland*

The use of food consumption data in assessments of exposure to food chemicals including the application of probabilistic modelling.
J. Lambe 11–18

Nutritional quality of organic food: shades of grey or shades of green?
C. M. Williams 19–24

Genetically modified foods, science, consumers and the media.
I. R. Rowland 25–29

Mad cows, mad corn and mad communities: the role of socio-cultural factors in the perceived risk of genetically-modified food.
M. L. Finucane 31–37

Food allergen avoidance: risk assessment for life.
M. H. Gowland 39–43

Plenary Lecture *(Symposium Proceedings: 10–12 July 2001)*

Chair: R. Fraser, *University of Sheffield, Sheffield, UK*

Maternal carbohydrate intake and pregnancy outcome.
J. F. Clapp III 45–50

Manipulating early diet *(Symposium Proceedings: 10-12 July 2001)*

Chair: M. Symonds, *University of Nottingham, Nottingham, UK*

Nutrient insult in early pregnancy.
J. Coad, B. Al-Rasasi & J. Morgan 51–59

Dietary essential fatty acids and brain function: a developmental perspective on mechanisms.
P. E. Wainwright 61–69

Manipulating the sulfur amino acid content of the early diet and its implications for long-term health.
W. D. Rees 71–77

Early diet and growth: impact on ageing.
A. Aihie Sayer & C. Cooper 79–85

Plenary Lecture *(Symposium Proceedings: 10–12 July 2001)*

Chair: R. D. E. Rumsey, *University of Sheffield, Sheffield, UK*

The athlete's diet: nutritional goals and dietary strategies.
R. Maughan 87–96

Postgraduate Symposium *(Symposium Proceedings, 10–12 July 2001)*

Chair: H. J. Powers, *University of Sheffield, Sheffield, UK*

Evidence for consistent patterns between flavonoid structures and cellular activities.
F. Depeint, J. M. Gee, G. Williamson & I. T. Johnson 97–103

Steroid hormone receptors and dietary ligands: a selected review.
M. N. Jacobs & D. F. V. Lewis 105–122

Fine and ultrafine particles of the diet: influence on the mucosal immune response and association with Crohn's disease.
M. C. E. Lomer, R. P. H. Thompson & J. J. Powell 123–130

The paradox of improved antiretroviral therapy in HIV: potential for nutritional modulation?
L. J. Ware, S. A. Wootton, J. M. Morlese, B. G. Gazzard & A. A. Jackson 131–136

Salivary antioxidants and periodontal disease status.
D. V. Sculley & S. C. Langley-Evans 137–143

Nutritional effects of new processing technologies *(Symposium Proceedings: 21 February 2001)*

Chairs: N. Heppell, *Oxford Brookes University, Oxford, UK;* **C. J. Seal,** *University of Newcastle, Newcastle, UK*

Nutritional losses and gains during processing: future problems and issues.
C. J. K. Henry & N. Heppell 145–148

Nutrition Society Medal Lecture *(Symposium Proceedings: 10–12 July 2001)*

Chair: C. M. Williams, *University of Reading, Reading, UK*

The role of the skeleton in acid–base homeostasis.
S. A. New 151–164

The Boyd Orr Lecture *(Symposium Proceedings: 10–12 July 2001)*

Chair: J. J. Strain; *University of Ulster, Coleraine, UK*

Nutrition interventions in aging and age-associated disease.
M. Meydani 165–171

Plenary Lecture *(Symposium Proceedings, 10–12 July 2001)*

Chair: A. Prentice; *MRC Human Nutrition Research, Cambridge, UK*

Strategies for skeletal health in the elderly.
R. Eastell & H. Lambert 173–180

Micronutrient supplementation: is there a case? *(Symposium Proceedings: 10–12 July 2001)*

Chair: J. Arthur, *Rowett Research Institute, Aberdeen, UK*

Is there a potential therapeutic value of copper and zinc for osteoporosis?
N. M. Lowe, W. D. Fraser & M. J. Jackson 181–185
Effects of micronutrient supplements on u.v.-induced skin damage.
M. J. Jackson, F. McArdle, A. Storey, S. A. Jones, A. McArdle & L. Rhodes 187–189
Antioxidant strategies for Alzheimer's disease.
M. Grundman & P. Delaney 191–202
The argument for increasing selenium intake.
M. P. Rayman 203–215

Plenary Lecture *(Symposium Proceedings: 10–12 July 2001)*

Chair: B. Margetts; *University of Southampton, Southampton, UK*

Nutritional epidemiology of cancer: accomplishments and prospects.
P. Lagiou, A. Trichopoulou & D. Trichopoulos 217–222

Achieving a balanced diet in the developing world: strategies to meet micronutrient needs *(Symposium Proceedings: 10–12 July 2001)*

Chair: E. Poskitt, *London School of Hygiene and Tropical Medicine, UK*

Can supplements help meet the micronutrient needs of the developing world?
R. Shrimpton & W. Schultink 223–229
Fortification strategies to meet micronutrient needs: successes and failures.
I. Darnton-Hill & R. Nalubola 231–241
Food-based strategies to meet the challenges of micronutrient malnutrition in the developing world.
K. Tontisirin, G. Nantel & L. Bhattacharjee 243–250
Meeting the challenges of micronutrient deficiencies in emergency-affected populations.
Z. Weise Prinzo & B. de Benoist 251–257

Evolving attitudes to food and nutrition *(Symposium Proceedings: 10–12 July 2001)*

Chairs: P. Rogers, *University of Sheffield, Sheffield, UK;* **I. Kyriazakis**, *Scottish Agricultural College, Penicuik, UK*

Developmental issues in attitudes to food and diet.
A. J. Hill 259–266
Resistance to changes in diet.
R. Shepherd 267–272
The production of food: from quantity to quality.
J. McInerney 273–279

Dietary fat: how low should we go? *(Symposium Proceedings: 10–12 July 2001)*

Chair: M. J. Gibney, *Trinity College, Dublin, Republic of Ireland*

Changes in fat synthesis influenced by dietary macronutrient content.
E. J. Parks 281–286

Dietary fat: assessing the evidence in support of a moderate-fat diet; the benchmark based on lipoprotein metabolism.
P. M. Kris-Etherton, A. E. Binkoski, G. Zhao, S. M. Coval, K. F. Clemmer, K. D. Hecker, H. Jacques & T. D. Etherton 287–298

Low-fat diets and energy balance: how does the evidence stand in 2002?
A. Astrup, B. Buemann, A. Flint & A. Raben 299–309

Nutritional effects of new processing technologies *(Symposium Proceedings: 21 February 2001)*

Chairs: N. Heppell, *Oxford Brooks University, Oxford, UK;* **C. J. Seal,** *University of Newcastle, Newcastle, UK*

Nutritional improvement of plant foods by non-thermal processing.
D. Knorr, B. I. O. Ade-Omowaye & V. Heinz 311–318

Sir David Cuthbertson Medal Lecture *(Symposium Proceedings: 13–15 November 2001)*

Chair: A. Pierro, *Institute of Child Health, London, UK*

Understanding chronic malnutrition in childhood and old age: role of energy balance research.
J. J. Reilly 321–327

Endocrine and nutritional modulation of the metabolic response to stress *(Symposium Proceedings: 13–15 November 2001)*

Chair: G. L. Carlson, *Hope Hospital, Salford, UK*

Modulation of post-operative insulin resistance by pre-operative carbohydrate loading.
O. Ljungqvist, J. Nygren & A. Thorell 329–335

Peri-operative amino acid administration and the metabolic response to surgery.
E. Selldén 337–343

Dietary modification of inflammation with lipids.
P. C. Calder 345–358

Working in partnership *(Symposium Proceedings: 13–15 November 2001)*

Chair: C.-A. McAtear, *Victoria Infirmary, Glasgow, UK*

Scottish Home Parenteral Nutrition Managed Clinical Network: coordination and standards.
J. P. Baxter & J. M. Tait 359–361

Mechanisms in nutrient regulation of inflammation *(Symposium Proceedings: 6 December 2001)*

Chairs: L. Harbige, *University of Greenwich, London, UK;* **J. Brostoff,** *Kings College, London, UK*

A role for the peroxisome proliferator-activated receptor α in T-cell physiology and ageing immunobiology.
D. C. Jones, B. M. Manning & R. A. Daynes 363–369

Effects of fatty acids on gene expression: role of peroxisome proliferator-activated receptor α, liver X receptor α and sterol regulatory element-binding protein-1c.
S. Kersten 371–374

1,25-Dihydroxycholecalciferol: endocrinology meets the immune system.
E. van Etten, B. Decallonne & C. Mathieu 375–380

Effects of *n*-3 fatty acids on cartilage metabolism.
C. L. Curtis, S. G. Rees, J. Cramp, C. R. Flannery, C. E. Hughes, C. B. Little, R. Williams, C. Wilson, C. M. Dent, J. L. Harwood & B. Caterson 381–389

n-3 Fatty acids for the treatment of inflammatory bowel diseases.
A. Belluzzi 391–395

Vitamin A as an anti-inflammatory agent.
R. Reifen 397–400

Post-genomic opportunities for understanding nutrition *(Symposium Proceedings: 13–14 February 2002)*

Chairs: J. Mathers, *University of Newcastle, Newcastle, UK;* **C. Lutton,** *Physiologie de la Nutrition, Orsay, France*

Post-genomic opportunities for understanding nutrition: the nutritionist's perspective.
R. P. Mensink & J. Plat 401–404

Nutrient regulation of gene expression *(Symposium Proceedings: 13–14 February 2002)*

Chairs: J.-L. Bresson, *Hopital Necker – Enfant Malades, Paris, France;* **H. McArdle,** *Rowett Research Institute, Aberdeen, UK*

Intracellular trafficking of micronutrients: from gene regulation to nutrient requirements.
J. E. Hesketh & S. Villette 405–414
Regulation of cell signalling by vitamin E.
G. Rimbach, A. M. Minihane, J. Majewicz, A. Fischer, J. Pallauf, F. Virgli & P. D. Weinberg 415–425

Genetic variation and response to food *(Symposium Proceedings: 13–14 February 2002)*

Chairs: M. Champ, *INRA, Nantes, France;* **P. C. Calder,** *University of Southampton, Southampton, UK*

Genetic polymorphisms and lipoprotein responses to diets.
S. Vincent, R. Planells, C. Defoort, M.-C. Bernard, M. Gerber, J. Prudhomme, P. Vague & D. Lairon 427–434
Factors affecting the development of food allergy.
I. Kimber & R. J. Dearman 435–439
Mapping quantitative trait loci and identification of genes that control fatness in poultry.
D. W. Burt & P. M. Hocking 441–446

Genetic variation and diet-related disease *(Symposium Proceedings: 13–14 February 2002)*

Chairs: P. Emery, *Kings College London, London, UK;* **M. Romon,** *Service de Nutrition, Lille Cedex, France*

Gene polymorphisms, inflammatory diseases and cancer.
W. M. Howell, P. C. Calder & R. F. Grimble 447–456
Gene–environment interaction: a central concept in multifactorial diseases.
L. Tiret 457–463

Perspectives in the study of food intake *(Symposium Proceedings: 26 March 2002)*

Chairs: I. Kyriazakis, *Scottish Agricultural College, Edinburgh, UK;* **J. Stubbs,** *Rowett Research Institute, Aberdeen, UK*

The evolution of the control of food intake.
A. W. Illius, B. J. Tolkamp & J. Yearsley 465–472
Does body mass play a role in the regulation of food intake?
J. R. Speakman, R. J. Stubbs & J. G. Mercer 473–487
Recent advances in the physiology of eating.
S. French & K. Castiglione 489–496
The physiological–psychological dichotomy in the study of food intake.
M. M. Hetherington 497–507

Recent advances in our understanding of risk-sensitive foraging preferences.
M. Bateson 509–516
Human eating behaviour in an evolutionary ecological context.
S. J. Ulijaszek 517–526

Influence of social and cultural variations on diet *(Symposium Proceedings: 19–21 June 2002)*

Chairs: M. Maloney, *Dublin Institute of Technology, Dublin, Republic of Ireland;* **P. Robson,** *University of Ulster, Coleraine, UK;* **S. Friel,** *National University of Ireland, Galway, Republic of Ireland*

Effect of social variation on the Irish diet.
C. Kelleher, S. Friel, G. Nolan & B. Forbes 527–536
Coronary heart disease: a disorder of growth.
S. M. Robinson & D. J. P. Barker 537–542
Healthy diet and lifestyle clustering and glucose intolerance.
I. J. Perry 543–551
Disparities in food habits across Europe.
A. Trichopoulou, A. Naska & T. Costacou, on behalf of the DAFNE III Group 553–558
Nutrition intervention in ethnic minority groups.
J. Thomas 559–567
Food budget standards and dietary adequacy in low-income families.
M. Nelson, K. Dick & B. Holmes 569–577
Food policies: a threat to health?
T. Lobstein 579–585

Abstracts of Communications

Fistuloclysis successfully avoids the need for total parenteral nutrition (TPN) in patients with acute intestinal failure.
H.R. Ravishankar, A. Renshaw, K. Morrison, A. Teubner, I.D. Anderson & G.L. Carlson 2A
Glutathione status in liver disease.
A.E. Wiskin, G. Constable, J. Jackson, M. Stroud & S. Wootton 2A
Effect of different rates of weight loss in healthy lean men on total energy expenditure and physical activity.
E.R. Gibney, A.M. Johnstone, P. Faber, R.J. Stubbs & M. Elia 3A
Preoperative carbohydrate provision attenuates loss of lean body mass in elective surgical patients.
K. Yuill, R.A. Richardson, R. Parks, O.J. Garden & H.I.M. Davidson 3A
Cost benefits of a hospital nutrition support team.
J.F. Kennedy, J.M.D. Nightingale & M. Currie 4A
Identifying patients with nutritional problems: a comparison of two nutrition screening tools.
C.E. Weekes & M. Elia 4A
Comparison of saliva and urine samples for estimating total body water by ^{2}H dilution in children.
J.C.K. Wells, O. Dewit, M. Elia & N.J. Fuller 5A
Energy turnover during home enteral tube feeding.
C. Henry, A. Wright, O. Dewit, C. Green & M. Elia 5A
Effect of different degrees of energy restriction on subjective and objective measurements of fatigue in healthy lean males.
E.R. Gibney, A.M. Johnstone, P. Faber, R.J. Stubbs & M. Elia 6A
Staphylococcus epidermidis in infant surgical patients on parenteral nutrition: gut carriage and septicaemia.
I. Ghosh, N. Klein, H.K.F. Van Saene & A. Pierro 6A
Counter-regulatory responses to fish oil and antioxidant supplementation: effect on synthesis of prostaglandin E_2 and interferon-γ in healthy humans.
T. Trebble, S.A. Wootton, N. Arden, G.C. Burdge, E.A. Miles, M.A. Stroud & P.C. Calder 7A

Hepatic metabolic responses to intestinal ischaemia-reperfusion in adult and suckling rats.
S.B. Williams, P. Vejchapipat, S.R. Williams, L. Spitz & A. Pierro 7A
The effects of moderate hypothermia and perfluorocarbons on intestinal energy metabolism after ischaemia-reperfusion.
P. Vejchapipat, E. Proctor, A. Petros, A. Ramsay, L. Spitz & A. Pierro 8A
Neonatal endotoxaemia inhibits carnitine palmitoyl transferase I in heart but not kidney.
K. Fukumoto, A. Pierro, L. Spitz & S. Eaton 8A
Intraoperative hypermetabolism in children undergoing laparoscopic surgery.
M. McHoney, L. Corizia, S. Eaton, L. Spitz, D.P. Drake, E.M. Kiely, H.L. Tan & A. Pierro 9A
Retention of *Candida albicans* by a new intravenous lipid emulsion filter.
A.J. Stephens, V. Vaduva & K. Grabowski 9A
Lipid-emulsion filter challenge testing with *Malassezia furfur*.
A.J. Stephens & A.J. Seacombe 10A
Lyophilised amino acid preparations containing glutamine.
G. Hardy, A. Marin & A. Torre 10A
The provision of phosphate in parenteral nutrition: a national BPNG survey.
W. Hicks, M. Allwood, K. Bethune, A. Cosslett, S. Dunnett, C. Granger, H. Martin, B. McElroy, C. Wormleighton & G. Hardy 11A
European survey of current practice in the delivery of parenteral nutrition to neonates and children.
B.U. Klüttgens, G.J. Sewell & A.J. Nunn 11A
A survey of protocols relating to drug administration via enteral feeding tubes.
R. White & R. O'Neill 12A
Body mass index and a comparison of bedside body composition methods using dual energy X-ray absorptiometry as a reference in ileostomy patients.
D.H.L. Ng, A.N.J. May, M. Elia, S.A. Wootton, A.A. Jackson & M.A. Stroud 12A
The potential of upper-arm bioelectrical impedance analysis to predict whole-body fat and fat-free mass in children.
N.J. Fuller, M.S. Fewtrell, O. Dewit, M. Elia & J.C.K. Wells 13A
Synbiotics and Crohn's disease: preliminary serum cholesterol results.
C.E. McNaught, D. Palmer, A. Walker, P. Poon, C.J. Mitchell & J. MacFie 13A
Plasma retinol and retinol binding protein concentrations in patients with chronic liver disease.
G. Constable, A. Cawood, J.L. Murphy, D. Cruddington, K. Gilmartin, J. Jackson, S. Wootton & M. Stroud 14A
Hepatic blood flow and portal and systemic blood gases during intestinal ischaemia-reperfusion.
S.B. Williams, S.R. Williams, L. Spitz & A. Pierro 14A
Home-managed nutritional supplementation amongst pre-school children with cerebral palsy: effect upon short-term weight gain.
A. Boyce, H. Hartley & J.E. Thomas 15A
Is the current service for the insertion of endoscopic feeding tubes appropriate and acceptable? A UK survey.
A.J. Hughes & T.E. Bowling 15A
The impact of restructuring a percutaneous gastrostomy service.
J.R. Boulton-Jones, H. Toraman, J.C. Jobling & K. Teahon 16A
Mortality risk factors for patients on home parenteral nutrition: the St Mark's experience.
R.S. Hodgson, N. Latif, C. Murray, A. Forbes & S.M. Gabe 16A
An audit of the percutaneous endoscopic gastrostomy (PEG) service provided by a nutrition support team in a District General hospital over a three-year period.
T.A. Chalmers-Watson, C.A. McKenzie, S.P. Burnham, G. Roberts, J. Fennell, K. Borland, G.M. Spencer & W.R. Burnham 17A
What really happened to those TPN patients?
R.F. McKee & S.M. Robertson 17A

Do routine oral protein and energy supplements improve survival in elderly people: a systematic review for the Cochrane Collaboration.
A.C. Milne, J.M. Potter & A. Avenell 18A
A clinical audit measuring enteral feed prescribed *versus* feed delivered in head-injured patients on a neurosurgical intensive care unit.
E. Segaran 18A
Concurrent validity of three nutrition screening tools for use in the community.
R.J. Stratton & M. Elia 19A
Current practice in the assessment and management of children with cerebral palsy: a national survey of paediatric dietitians.
H. Hartley 19A
Incidence of undernutrition within intermediate care.
E. Wallace, P. Marshall & C. Blackburn 20A
Health care utilisation according to malnutrition risk in the elderly: an analysis of data from the National Diet and Nutrition Survey of people aged 65 and over.
R.J. Stratton, R.L. Thompson, B.M. Margetts, M. Stroud, A.A. Jackson & M. Elia 20A
What factors influence whether children admitted to a cardio-thoracic paediatric intensive care unit (PICU) are enterally fed within 12 hours of admission?
N. Twaites, C. Anderson, D. MacCrae & S.J. Illingworth 21A
An audit of metabolic abnormalities and complications in parenterally fed patients managed by a nutritional support team.
S.T. Burden, K. Ward, A. Holt & A.J. Makin 21A
Benefits of implementing enteral feeding guidelines on a paediatric bone marrow transplant ward.
S. Murray, V. Wigg & N. Bennett Rees 22A
An audit of prescribed *versus* received enteral feeds in a critically ill population.
M. Brooke & A. Scott 22A
Effect on patient energy intakes of adding snacks to the patient menu at a District General hospital.
K.J. Lord 23A
Inequalities in healthcare: an investigation into service provision to home-based enterally tube-fed patients in Greater Manchester.
S.T. Burden, K. Ward, R. Parker, T. Grant & J. Shaffer 23A
Systematic review of nutrition support for bone marrow transplant patients.
S. Murray & S. Pindoria 24A
A pilot study to investigate the appropriate prescribing and use of oral nutritional supplements within the community.
A. Kyle 24A
Feeding jejunostomy inserted during gastrointestinal surgery: extra risk or nutritional safety net? A retrospective review of 55 cases.
A.J. Fairhurst, A. Schmiedel, P. Deel-Smith, G. Gadd, R.P. Grimley, H.C Norcott, T. Digger, N.C. Fisher & B.J.M. Jones 25A
Evaluation of a multidisciplinary feeding clinic for home enterally-fed children.
C.T. Dunlop, L. Russell, L. Crampin, A. Rennie, P. Galloway, L.T. Weaver & J.J. Reilly 25A
A survey of problems ward managers perceive they have with the delivery of effective nutritional care at ward level.
H. Toraman, H. Ream & J. Leggott 26A
Quality benefits of a hospital nutrition support team.
J.F. Kennedy, J.M.D. Nightingale & M. Currie 26A
Effect of starvation and a very low energy diet (VLED) on subjective feelings of hunger in healthy lean males.
E.R. Gibney, R.J. Stratton, A.M. Johnstone, P. Faber, R.J. Stubbs & M. Elia 27A

A protein- and energy-dense, *n*-3 fatty-acid-enriched oral nutritional supplement improves dietary intake and weight in patients with cancer cachexia.
R. Richardson, M. Ferguson, K. Ried, K. Yuill, A. Moses, K. Fearon & A. Voss 27A
n-3 Polyunsaturated fatty acid status in paediatric Crohn's disease: relationship to disease activity.
T. Trebble, M.D.S. Erlewyn-Lajeunesse, A.N.J. May, S.A. Wootton & R.M. Beattie 28A
Fentanyl has a beneficial effect on neonatal hepatocyte function.
M. Zamparelli, A. Pierro, L. Spitz & S. Eaton 28A
Intestinal and hepatic metabolic derangement during the early stage of endotoxaemia in the neonatal period.
P. Vejchapipat, S. Eaton, K. Fukumoto, H. Parkes, T. Reynolds, L. Spitz & A. Pierro 29A
Circulating retinol concentrations in patients given total parenteral nutrition.
K. Gilmartin, A. Cawood, J.L. Murphy, G. Constable, M. Stroud, J. Jackson & S.A. Wootton 29A
An audit of nutritional screening at Harefield hospital.
G. Ravenhill & S.J. Illingworth 30A
A three-year audit of stroke patients receiving enteral nutrition.
P. Barker, A. Walker, C.E. McNaught, C.J. Mitchell & J. MacFie 30A
Recycling of chyme: a possible alternative to the use of parenteral nutrition?
J.P. Morley & A.M. Myers 31A
Patients the focus of care: educational nurse-led clinics.
C.E. Holden, E. Sexton & D.A. Caney 31A
Enteral feeding in patients with significant burn injury: nasojejunal tube feeding is superior to nasogastric tube feeding.
E.J. Sefton, J.R. Boulton-Jones, A. Fletcher, D. Wilson, D. Anderton, F. Bailey, K. Teahon & D. Knights 32A
Is dietary fibre necessary in sip feeds for young children?
A.D. Daly & A. Macdonald 32A
Oral nutritional supplement flavour preferences of weight-losing patients with cancer.
J. Edington, M. Hollingsworth, L. Rhoades, S. Campbell, M. Ferguson, K. Mayer & A. Voss 33A
Nutrient fortification of the purée menu at the Royal Bolton hospital.
Z.M. Ansari 33A
Prospective randomized controlled single-blind trial of the effects of multidisciplinary nutrition team follow-up for 12 months after percutaneous endoscopic gastrostomy insertion.
H.F. Scott, F. Smedley, L. Timmis, R. Beech, C. Roffe & T. Bowling 34A
Outcomes in home parenteral nutrition: positive trends for the future.
F.C. Leslie, M.A. Bradley & J.L. Shaffer 34A
How does a simple validated nutritional risk assessment compare with the Mini Nutritional Assessment in elderly women with hip fracture?
D.G. Duncan, K. Hood, S.J. Beck & A. Johansen 35A
Evaluation of a nutrition education programme in a Primary Care Trust: a pilot study.
R.A. Richardson, K. Cowborough, V. Todorovic & K. Buckner 35A
A randomised, controlled study of the incidence of phlebitis in patients with short teflon cannulas electively changed at 48 h intervals.
P. Barker, S. Morrea, C.E. McNaught, J. MacFie & C.J. Mitchell 36A
Endoscopic placement of nasojejunal tubes avoids parenteral nutrition.
S.M. Shah, M. Currie, J.F. Kennedy, T. Podas & J. Nightingale 36A
Catheter-related sepsis: standardisation of definition and reporting.
S.M. Shah, J.F. Kennedy & J.M.D. Nightingale 37A
The effect of a hospital nutrition support team on catheter-related sepsis rates in patients receiving parenteral nutrition.
J.F. Kennedy & J.M.D. Nightingale 37A
Percutaneous endoscopic gastrostomy insertion: a 10-year experience.
B.L. Litchfield, A. Sinha & J.M.D. Nightingale 38A

The influence of the apolipoprotein B XbaI polymorphism on the association between habitual fat intake and total and LDL cholesterol levels.
L.F. Masson, A. Cumming, C. Tuya & G. McNeill 40A
Degree of oxidation of low-density lipoprotein affects gene expression in human monocyte-derived macrophages.
I.C. Kavanagh, C.E. Symes, D.S. Leake & P. Yaqoob 40A
Dietary fish oil increases the expression of murine peroxisome proliferator activated receptor genes.
C.E. Donnellan, M. Tadayyon, C. Briscoe, J. Arch & P.C. Calder 41A
The effects of conjugated linoleic acid on the expression of genes involved in cholesterol homeostasis in THP-1 macrophages.
S.M. Weldon, M.J. Gibney & H.M. Roche 41A
The effects of fatty acids on PHA-induced cytokine gene expression and production in human peripheral blood mononuclear cells.
A.P. Nugent, M.J. Gibney & H.M. Roche 42A
High carbohydrate diet and non-digestible carbohydrates have beneficial effects on endogenous lipid synthesis and plasma lipid levels in humans but do not modify the expression of lipogenic genes in adipose tissue.
M. Beylot, D. Letexier, C. Vidon, F. Diraison & J. Van Loo 42A
A study of CpG island methylation and crypt cytokinetics in human subjects with colorectal cancer.
N.J. Belshaw, J.M. Gee, A. Polley, M. Watson, M. Rhodes & I.T. Johnson 43A
Effect of various diets on gene expression in the liver of mice.
N. Dragin, P. Costet, V. Le Morvan, L. Dubourg, M.J. Thomas, A. Palos-Pinto, Y.M. Darmon & E. Peuchant 43A
c-Fos and HSP70 gene expression in different brain regions of male and female rats after chronic alcohol feeding.
T. Nakahara, M. Hirano, H. Uchimura, S. Shirali, C.R. Martin, A.B. Bonner & V.R. Preedy 44A
The isomer-specific effects of conjugated linoleic acid on gene expression and lipid metabolism in fasting male Ob/Ob mice.
E.J. Noone, S. McBennett, M.J. Gibney & H.M. Roche 44A
Dietary docosahexaenoic acid (DHA) increases plasma LDL cholesterol concentration and reduces the expression of hepatic sterol regulatory element binding (SREBP) 2 in the hamster.
A.M. Salter, J. Bennett & A.J. Bennett 45A
Dietary fat intake in people with familial hypercholesterolaemia is significantly lower than BMI matched household family members.
A.E. Brynes, J. Shrimpton, F. O'Neill, G.S. Frost & G.R. Thompson 45A
The effect of Zn on expression in human intestinal and placental cells of Zn transporter mRNAs.
S.R. Phillips, R.M. Russi, R.A. Cragg, J.M. Piper, J.C. Mathers & D. Ford 46A
Copper influences the expression and function of the iron transporter DMT1 in human intestinal epithelial cells.
J.P. Tennant, S. Yamaji, S.K.S. Srai & P.A. Sharp 46A
Zinc chelation amplifies thyroid hormone action, but has variable effects on zinc efflux in cultured cells.
H.C. Freake, M. Schaller, A. Trzcienski & S.A. Zinn 47A
Genotype and iron intake in British women.
B. Bratley, D. Greenwood, V. Burley, J. Randerson-Moor, K. Kukalizch, J. Moreton & J. Cade 47A
Regulation of growth hormone (GH) binding to cultured pig hepatocytes by certain amino acids.
J.M. Brameld & P.J. Buttery 48A
Assay and comparison of D9 desaturase kinetic parameters in adipose tissue microsomes (rat, human and 3T3-F442A cells).
Y. Amet, E. Plee-Gautier, Y. Dreano, F. Berthou & J. Delarue 48A

Regulation of retinol binding protein gene expression in adipocytes differentiated from fibroblastic preadipocytes in primary culture.
C.R.M. Keeley, D.V. Rayner, A. Merryman-Simpson & P. Trayhurn 49A
Effects of dietary vitamin E depletion on colon gene transcription profiles.
J.E. Drew, G.G. Duthie, J.R. Arthur, K. Pickard, P.C. Morrice, S.J. Duthie & C. Mayer 49A
Differential gene expression in DNA mismatch repair proficient and deficient colorectal cancer cell lines exposed to butyrate.
J.M. Coxhead, E.A. Williams, C. Gaspar, W. Bal, R. Fodde & J.C. Mathers 50A
Folic acid supplementation increases genomic DNA methylation in patients with colorectal adenoma.
M. Pufulete, R. Al-Ghnaniem, A. Kushal, A.J.M. Leather, J.A. Rennie, P.W. Emery & T.A.B. Sanders 50A
Selenoprotein expression in the rat colon during Se deficiency.
V. Pagmantidis, G. Bermano, I. Broom, J.R. Arthur & J.E. Hesketh 51A
Micronutrients and cancer prevention: effect of sulphoraphane, an isothiocyanate from broccoli, in the regulation of human colon cancerous cell growth and death.
P. Rouimi, C. Assoumaya, G. Parnaud, A. Carpentier, N. Gasc, J. Tulliez & L. Gamet-Payrastre 51A
Rats fed a high-sucrose diet have altered heart antioxidant enzyme activity and gene expression.
J. Busserolles, W. Zimowska, E. Rock, Y. Rayssiguier & A. Mazur 52A
The effects of high-fibre breakfast cereals on subjective reports of energy and mood.
A. Smith 52A
Does intensive feeding support improve nutritional status and outcome in acutely ill older in-patients?
M. Hickson, C. Bulpitt, M. Nunes, R. Peters, J. Cooke, C. Nicholl & G. Frost 53A
Duplicate diet comparison of total fat and fatty acid intake between British Sikhs and Caucasians.
L.M. Brady, S. Lesauvage, C.M. Williams & J.A. Lovegrove 53A
Web-based quiz program to teach food composition.
A. Wise 54A
Body composition and resting energy expenditure in a small group of young professional footballers.
A.L. Collins & H.D. McCarthy 54A
Association between nutritional anthropometric parameters and vitamin A status of neonates at birth in Varamin, Iran.
A. Djazayery, A.A. Soheili & M. Djalali 55A
Capillary electrophoresis as a tool in urinary profiling: application to a nutritional disorder.
C. Guillo, D. Perrett, V. Preedy & M. Hanna-Brown 55A
Malondialdehyde and acetaldehyde protein adducts in heart in response to acute alcohol exposure assessed by immunohistochemistry.
O. Niemela, S. Parkkila, P.W. Emery & V.R. Preedy 56A
Iron status, diet and cognitive ability in schoolboys aged 11–14 years.
C.S. Williamson, H. Al-Hamad & M. Nelson 56A
Measuring changes in serum iron concentration as an indicator of dietary iron absorption.
R. Conway, J. Powell, R. Hider, R. Thompson & C. Geissler 57A
Reticulocyte incorporation of iron: a new method for measuring iron absorption in humans.
B. Sarria, K. Ivory, T.E. Fox, J.R. Dainty, J. Eagles, J. Hoogewerff & S.J. Fairweather-Tait 57A
Assessing potential iron bioavailability in transgenic plants that over-express phytase.
S. Pariagh, G. Drakakaki, E. Stoger, E.K. Lund, P. Christou & S.J. Fairweather-Tait 58A
Prevalence of key dietary and lifestyle risk factors for osteoporosis in young British women.
J. Catterick, J.A. Bishop, V.K. Banner, N.J. Jotcham, D. Pattison, A. Woolf & S.A. New 60A
Consumer perceptions of genetically modified foods: changes over time.
S.F.L. Kirk, J.E. Cade, D. Greenwood & A.D. Pearman 60A

Hypotriacylglycerolaemic effects of fish oils in British Sikhs and Caucasians.
J.A. Lovegrove, S.V.M. Lesauvage, S.S. Lovegrove, N. Saini, B.A. Griffin, A.M. Minihane & C.M. Williams 62A
The stability of food intake between adolescence and adulthood: a 21-year follow-up.
A.M. Craigie, A.A. Lake, C. Wood, M. Gibbons, S. Webster, A.J. Adamson, A.J. Rugg-Gunn & J.C. Mathers 64A
Aggregation of diets containing fatty and sugary foods and fruit and vegetables within cohabiting couples.
A.A. Lake, A.M. Craigie, C. Wood, M. Gibbons, A.J. Rugg-Gunn, J.C. Mathers & A.J. Adamson 64A
The development and pilot evaluation of a pregnancy nutrition education intervention programme ('Food For Life') for women aged 16-18 years.
W.L. Wrieden & A. Symon 65A
Use of the theory of planned behaviour to predict intention of complete denture wearers to eat more fruit and vegetables.
J. Bradbury, J.M. Thomason, N.J.A. Jepson, A.W.G. Walls, P.F. Allen & P.J. Moynihan 65A
The development and evaluation of a school-based approach to increasing vegetable intake in schoolchildren.
K.L. Barton, A.S. Anderson, A. Woodcock, E. Robertson, P. McCaffrey & L.E.G. Porteous 66A
A shelf-stable, palatable test meal suitable for use with hydrophilic and lipophilic tracers in ^{13}C breath tests.
C. Slater, T. Preston, D.J. Morrison & L.T. Weaver 66A
Estimation of food intake through chewing analysis in free-grazing animals.
F.F. Bermúdez, J.J. Amor Ranedo & J.P. Barrio 67A
Melatonin changes the pattern of daily food intake in streptozotocin-induced diabetic rats.
V. Molpeceres, M.V. García-Mediavilla & J.P. Barrio 67A
Factors influencing the perception of amount in servings of chips with different thicknesses.
S.E. Covington & A. Wise 68A
Approaches to weight maintenance in a work-site setting.
W.S. Leslie, M.E.J. Lean & C.R. Hankey 68A
Estimating dietary flavonoid intake: comparison of a semi-quantitative food frequency questionnaire with 4-day weighed diet records in a Scottish population.
J. Kyle, L.F. Masson, D.A. Grubb, G.G. Duthie & G. McNeill 69A
Polyunsaturated fatty acid modulation of the immune response as assessed by cytokine production.
G.A. Gilmore, J.M.W. Wallace & W.S. Gilmore 71A
Serum vitamin D and parathyroid hormone concentrations in a group of 50 to 70-year-old Irish women.
T.R. Hill, M.M. O'Brien, M. Kiely, A. Flynn & K.D. Cashman 71A
Evaluation of dipeptidyl peptidase-IV in type 2 diabetic patients under different glycaemic control.
N. Duffy, A.M. McKillop, J.R. Lindsey, F.P.M. O'Harte, P.M. Bell & P.R. Flatt 72A
Reported intakes and assessment of iron and folate stores among Dublin schoolchildren.
A.C. Griffin, M.A.T. Flynn & K.M. Younger 72A
Plasma homocysteine is not related to aortic pulse wave velocity in healthy young adults.
J.V. Woodside, A. M. Gallagher, C.A. Boreham, L.J. Murray, J.J. Strain, H. McNulty, P.J. Robson, M. Savage & I.S. Young 73A
Ascorbic acid supplementation reduces blood pressure and arterial stiffness in patients with type 2 diabetes.
I.S. Young, B.A. Mullan & D.R. McCance 73A
Nutritional intakes of Qatari women during and after Ramadan.
A. Al-Romaihi, M. Moloney & E.P. McNamara 74A

Identification of twenty-six risk factors affecting nutritional intake and a mini nutritional assessment of patients in a long-stay psychiatric hospital.
M. O'Donnell, M. McNicholas & P. Finegan 74A
Setting up a peer-led nutrition education program in a rural setting: identifying the pitfalls and strengths.
C. Gray & M. Clancy 75A
Irish dietitians' views on tube feeding.
S. Healy & E.P. McNamara 75A
Energy and protein intakes, and subjective global assessment of peritoneal dialysis patients.
O. Griffin, G. Houlihan & M. Moloney 76A
Protein and energy intakes and subjective global assessment of haemodialysis patients.
O. Slevin, G. Houlihan & M. Maloney 76A
Modulatory effects of α- and γ-tocopherol on oxysterol-induced cytotoxicity in two human cell lines.
A.J. O'Sullivan & N.M. O'Brien 77A
Content of the phytosterols β-sitosterol, campesterol and stigmasterol in commercially available vegetable oils.
D.M. Fahy, K. Galvin & N.M. O'Brien 77A
The alteration of cellular glutathione content in oxysterol-induced apoptosis.
L. Ryan, Y.C. O'Callaghan & N.M. O'Brien 78A
The effect of β-sitosterol oxidation products on cell viability in two human cell lines.
L.S. Maguire, M.A. Konoplyannikov & N.M. O'Brien 78A
Effects of an algal extract containing astaxanthin on UVA-irradiated human skin fibroblasts in culture.
N.L. Lyons & N.M. O'Brien 79A
Development of an *in vitro* model to estimate the bioavailability of carotenoids.
S.M. O'Sullivan & N.M. O'Brien 79A
The effect of various types of nutritional education on the nutritional knowledge of senior inter-county Gaelic Athletic Association hurlers.
C. Breen, E. McNamara & H.M. Roche 80A
Nutritional intake, knowledge and supplement use of competitive Irish cyclists.
E. O'Sullivan, P. Doran & E.P. McNamara 80A
Risk perception in expert and non-expert groups.
A. Mullen, J. Lambe & M.J. Gibney 81A
Consumer choice of chicken.
O.B. Kennedy, B.J. Stewart-Knox, P.C. Mitchell & D.I. Thurnham 81A
Effects of oral physiology on the release of aroma from model food systems using two model mouth simulators.
M.D. Geary, S.M. van Ruth, E.H. Lavin, C.M. Delahunty & T.E. Acree 82A
Some like it hot: influence of chemical irritation on flavour and texture perception.
C.G. Forde & C.M. Delahunty 82A
Birth weight, breast-feeding and body fatness in Northern Irish adolescents: the Young Hearts project.
S.M. McElhone, J. Twisk, P.J. Robson, L. Murray & C.A.G. Boreham 83A
Energy and macronutrient intakes reported by adolescents in Northern Ireland: comparison of 1990 and 2000 data.
O.A. Ward, P.J. Robson, G.W. Cran & C.A.G. Boreham 83A
Energy and nutrient intakes among healthy overweight volunteers, maintained on low-sucrose (5% energy) and sucrose-containing (10% energy), weight-reducing diets.
M. Finn & M. Moloney 84A

Tracking of energy and macronutrient intakes from adolescence to young adulthood: the Young Hearts project, Northern Ireland.
A.M. Gallagher, P.J. Robson, A.J. Long, G.W. Cran, J.J. Strain, L.J. Murray, J.M. Savage & C.A.G. Boreham 84A
Compliance, acceptability and carbohydrate knowledge in healthy overweight volunteers, maintained on low-sucrose (5% energy) and sucrose-containing (10% energy), weight-reducing diets.
R.T. Hannon & M. Moloney 85A
Intakes of saturated, monounsaturated and polyunsaturated fat in Irish adults: findings of the North/South Ireland Food Consumption Survey.
A.J. Wallace, S.N. McCarthy & M.J. Gibney 85A
The impact of ready to eat breakfast cereals (RTEBCs) on the level of inadequacy of micronutrients and non-compliance with dietary recommendations in Irish adults.
M.A. Galvin, M. Kiely & A. Flynn 86A
Characteristics of nutritional supplement users versus non-users.
E.N. Newman, E.M. Hannon, M. Kiely & A. Flynn 86A
Cereal intake in Ireland and its potential use for food-based dietary guidelines.
S.J. Burke, S.N. McCarthy, N.A. O'Dwyer, A.J. Wallace & M.J. Gibney 87A
Where are we eating? Analysis of the number of eating occasions at various locations, with emphasis on the food service sector.
N.A. O'Dwyer, S.N. McCarthy, S.J. Burke, A.J. Wallace & M.J. Gibney 87A
Adolescents talking about food and health: a focus group approach.
M. Morrissey, M.C. McKinley, C. Lowis, P.J. Robson, A. Moran & M.B.E. Livingstone 88A
Relationship between carbonated soft drink intake and bone mineral density in Northern Irish adolescents: the Young Hearts project.
C.P. McGartland, P.J. Robson, L. Murray, J.M. Savage & C.A.G. Boreham 88A
Social class influences on energy and macronutrient intakes reported by 12-year-old boys and girls participating in the Northern Ireland Young Hearts project: 1990 compared with 2000.
M.R. O'Neill, P.J. Robson & C.A.G. Boreham 89A
The effect of inter-generational social and regional circumstances on dietary intake patterns of British adults: results from the 1946 Birth Cohort.
G.D. Mishra, A.A. Paul, D.C. Greenberg, M.E.J. Wadsworth & C. Bolton-Smith 89A
Food poverty in rural Ireland.
J. Harrington & S. Friel 90A
Health and lifestyle inequalities: the emerging Ireland.
S. Friel, C.C. Kelleher & G. Nolan 90A
Mean percentage body fat in relation to socio-demographic, lifestyle factors and physical activity in Irish adults.
C.M. Murphy, M.A. Galvin, M. Kiely & A. Flynn 91A
Evaluation of the *in vitro* antioxidant activity of wheat milling fractions.
R.K. Beattie, R.W. Welch, A.M. Lee, J.J. Strain, K. O'Sullivan & G.M. Campbell 91A
Evaluation of the *in vitro* antioxidant activity of oat products as influenced by source and milling conditions.
A.M. Lee, R.W. Welch, R.K. Beattie & J.J. Strain 92A
Folate analysis of composite meals.
K. Pentieva, J.A. Kidd, D.J. McKillop, J.J. Strain, J.M. Scott & H. McNulty 92A
Homocysteine in renal transplant patients is affected by immunosuppressive regimens.
J.A. Troughton, R. Cunningham, J.V. Woodside, A.P. Maxwell & I.S. Young 93A
Plasma homocysteine is a reliable functional indicator of folate status.
M. Ward, J.J. Strain, J. McPartlin, J.M. Scott & H. McNulty 93A
Setting up a cardiovascular, dietetic clinic service in primary care.
V. O'Connor & M. O'Donnell 94A

An audit of patients leaving an oncology hospital on home enteral feeding.
L. Maxwell, N. O'Sullivan, & E.P. McNamara 94A
Healthy eating policy development in primary schools – the learning process.
L. Kirby & M. O'Donnell 95A
Setting up a peer-led nutrition project for disadvantaged groups in Galway City.
M. Hurley & M. O'Donnell 95A
The Happy Heart Catering Award 1998–2001.
A. O'Shea, O. Carolan & N. Eldin 96A
Dietary energy and macronutrient intake among Bangladeshis in East London.
J.W. Rahman & V. Costarelli 96A
Scepticism of claimed benefits predicts rejection of reduced fat food products.
B. Stewart-Knox, J. Hamilton & B. Bunting 97A
Effects of forage legumes on the fatty acid composition of beef.
N.D. Scollan, M. Enser, R.I. Richardson & J.D. Wood 99A
The fatty acid composition of muscle and liver of lambs fed concentrates alone or with grass silage.
E. Kasapidou, J.D. Wood, L.A. Sinclair, R.G. Wilkinson & M. Enser 99A
The effects of breed and diet on the fatty acid content of the phospholipid fraction of bovine *longissimus dorsi*.
H.E. Warren, M. Enser, K. Hallett, J.D. Wood & N.D. Scollan 100A
Development by chicks of selection against foods containing lithium chloride or diluted with wheat, or both.
D. Li & J.M. Forbes 100A
The effect of the biological selenium status on the oxidative stability of sheep meat.
E. Kasapidou, J.D. Wood, B.G. Merrell, S.N. Brown & M. Enser 101A
The individual and combined effect of thymol and carvacrol on coccidia-infected broiler chickens.
F. Ibrir, H.M.R. Greathead & J.M. Forbes 101A
Effects of quebracho tannins on nutrient utilisation of chickpeas by sheep.
M.H.L. Bento, T. Acamovic & J.M.F. Abreu 102A
Influence of grass silage fermentation and concentrate composition on the fatty acid composition of bovine muscle.
A.P. Moloney, D. McGilloway & C. Stanton 102A
In-vitro evidence for plant enzyme mediated lipolysis in the rumen.
M.R.F. Lee, M.K. Theodorou, T.T. Chow, M. Enser & N.D. Scollan 103A
Colour of subcutaneous adipose tissue and *longissimus dorsi* muscle of heifers fed grass, grass silage or concentrate-based diets.
P.G. Dunne, A.P. Moloney, F.J. Monahan & F.P. O'Mara 103A
Use of distortions of the jaws and the skull during eating and ruminating to measure strength of chewing in sheep fed roughage and concentrate diets.
W.L. Grovum, J.J. Thomason, W.W. Bignell & A.G. Deswysen 104A
A study of gas pressure receptors in the reticulorumen which may evoke eructation in sheep.
W.L. Grovum & W.M. Shaik Mossadeq 104A
Reducing dietary fat intake: strategies employed by subjects in the UK Women's Cohort Study.
C. Golding, J. Cade, S. Kirk, C. Lawton & D. Greenwood 105A
The stability of nutrient intake between adolescence and adulthood: a 21-year follow-up.
A.M. Craigie, A.A. Lake, C. Wood, M. Gibbons, S. Webster, A.J. Adamson, A.J. Rugg-Gunn & J.C. Mathers 105A
Parental change in starch and fat intake after a "starchy food" intervention.
P.J. Curtis, S. Webster, A.J. Adamson & J.C. Mathers 106A
Promoting dietary change in primary school children: parental perspectives.
K.H. Hart, L.V. Ryder, L.A. Bennett, J.A. Bishop & H. Truby 106A

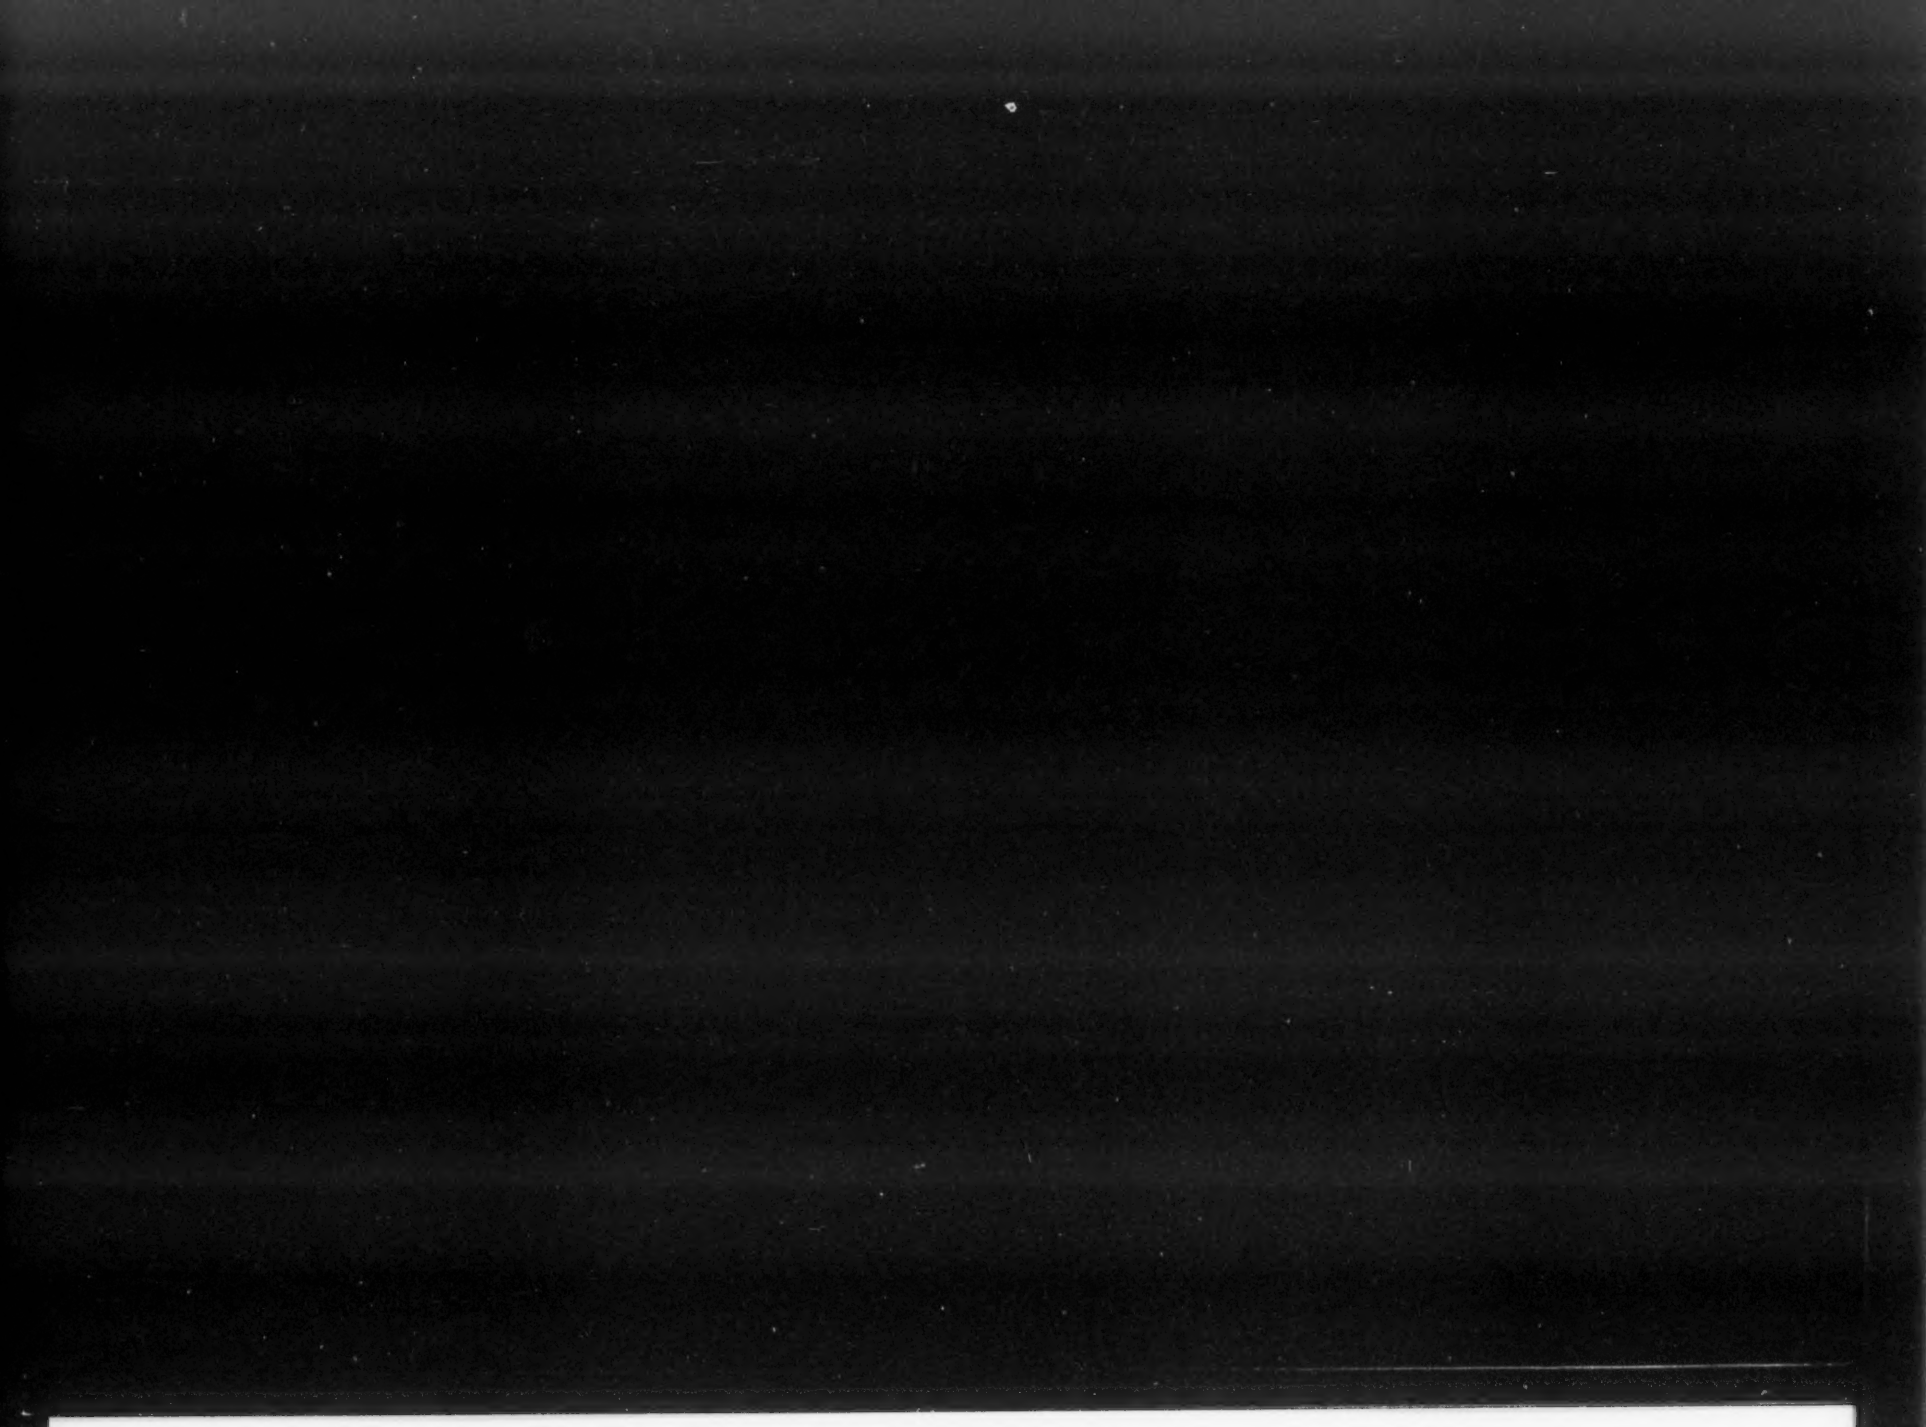
Trends of overweight and obesity in 11–12-year-old adolescents between 1980 and 2000, measured using different BMI cut-offs.
E.S. Fletcher, A.J. Adamson, A.F. Hackett & A.J. Rugg-Gunn 107A
Low folate status, high alcohol intake and genomic DNA hypomethylation predict the risk of colorectal adenoma and cancer: a case control study.
M. Pufulete, R. Al-Ghnaniem, A.J.M. Leather, P.W. Emery & T.A.B. Sanders 107A
The influence of the lipoprotein lipase S447X and HindIII polymorphisms on the association between habitual dietary saturated fat intake and lipid levels.
L.F. Masson, A. Cumming, C. Tuya & G. McNeill 108A
Changes in blood, plasma and red cell volume after ingestion of hypotonic and hypertonic solutions.
S.J. Merson, S.M. Shirreffs, J.B. Leiper & R.J. Maughan 108A
Effect of daily caffeine consumption on fluid balance.
C.L. Miller & R.J. Maughan 109A
Branched chain amino acids and prolonged exercise capacity in a warm environment.
P. Watson, A.T. Strachan, S.M. Shirreffs & R.J. Maughan 109A
Altered plasma phosphatidylcholine *n*-3 polyunsaturated fatty acid concentrations in male colectomy patients.
A.N.J. May, D.H.L. Ng, G.C. Burdge, P.C. Calder, M.A. Stroud & S.A. Wootton 110A
Association between salivary antioxidant status and periodontal disease.
D.V. Sculley & S.C. Langley-Evans 110A
Dietary intake and bone mass in the mothers of gymnasts and controls: preliminary analysis of the extent of genetic influences on peak bone mass development.
J.A. Nurmi, J.A. Bishop, P. Taylor, C. Cooper & S.A. New 111A
Dietary patterns and alkaline phosphatase in the elderly in the UK.
M. Safarian, B.M. Margetts & A.A. Jackson 111A
Indices of bone health and lifestyle characteristics in premenopausal and postmenopausal Saudi Arabian women.
S.O. Khoja, J.A. Khan, A.-R.A. Maimani & S.A. New 112A
Investigation into the role of dietary phenolics in the acute modification of glucose tolerance and gastrointestinal hormone secretion in volunteers.
K.L. Johnston, M.N. Clifford & L.M. Morgan 112A
The glycaemic index of a meal replacement formula diet.
A. Norouzy, A.R. Leeds & P.W. Emery 113A
Effect of osmolality on gastric emptying of carbohydrate solutions.
C.H. Simpson, S.M. Shirreffs, J.B. Leiper & R.J. Maughan 113A
Higher intakes of zinc are positively associated with indices of bone health in perimenopausal and early postmenopausal Scottish women.
H.M. Macdonald, S.A. New, W.D. Fraser & D.M. Reid 114A
Alcohol intake: an example of how to handle missing dietary questionnaire information.
U.A. Nur, D.C. Greenwood, J.E. Cade & N.T. Longford 114A
Missing data in standard food composition tables.
C. Whitham, M. Standing, J. Pollard, D. Greenwood & J. Thomas 115A
The prevalence of overweight and obesity in children aged 4–12 years in Gibraltar, using the International Obesity Taskforce standard definition.
S.F.L. Kirk & M. McLeod 115A
Frequency of confectionery consumption from vending machines and other purchase providers: associations with dietary and lifestyle habits in British schoolchildren.
S.A. New & M.B.E. Livingstone 116A
Waist : Height ratios in British children aged 5–16 years: a suggestion for a simple public health message – 'keep your waist circumference to less than half your height'.
H.D. McCarthy & M. Ashwell 116A

Role of cheese in the diet of children aged 4–18 years: further analysis of the National Dietary and Nutritional Survey.
T.A.B. Sanders & A. Parke 117A
Ability of the UK Women's Cohort Study food frequency questionnaire to rank dietary intakes: a preliminary validation study.
M. Spence, J.E. Cade, V.J. Burley & D.C. Greenwood 117A
Association between food variety and selected socio-demographic and lifestyle characteristics in adults in the West of Scotland.
M. Ebrahimi-Mameghani, J.A. Scott & G. Der 118A
Impact of whole grain breakfast consumption on daily nutrient intakes.
A.T. Smith, S. Kuznesof, D.P. Richardson & C.J. Seal 118A
Predictors of plasma selenium in participants of the UK Women's Cohort Study.
G.R. McArt, J.E. Cade, V.J. Burley & D.C. Greenwood 119A
Effect of maternal nutrient restriction during late-gestation on growth hormone (GH) and prolactin (PRL) receptor abundance in neonatal lambs.
M. Hyatt, J. Bispham, J. Dandrea, D. Walker, M.E. Symonds & T. Stephenson 119A
Maternal nutrient restriction during early to mid-gestation and programming of kidney development of juvenile offspring in sheep.
G. Gopalakrishnan, I.W. Seetho, G. Robinson, A. Mostyn, S. Pearce, J. Dandrea, V. Wilson, M.M. Ramsay, T. Stephenson & M.E. Symonds 120A
Supplementing a maternal low protein diet with folic acid in the rat corrects the high blood pressure effect in the offspring.
R.L. Dunn, G. Burdge & A.A. Jackson 120A
Maternal nutrient restriction between early- to mid-gestation has differential effects on hepatic class 1 cytokine receptor mRNA abundance in mid- and late-gestation ovine fetuses.
M. Hyatt, J. Bispham, J. Dandrea, D. Walker, T. Stephenson & M.E. Symonds 121A
Fetal exposure to a maternal low-protein diet and the immune system.
S.C. Langley-Evans, P.J. Buttery & D. Wakelin 121A
Assessment of biological variability in plasma metabolite and insulin concentrations after an overnight fast in humans.
B.A. Fielding, F. Karpe, V. Ilic, S.M. Coppack, V. Lawrence & K.N. Frayn 122A
Effect of two methods of hypohydration on rehydration and exercise performance: a comparison with the euhydrated state.
D.T. Archer & S.M. Shirreffs 122A
Does the dietary *n*-6 : *n*-3 polyunsaturated fatty acid ratio modulate the hypolipidaemic effects of fish oil supplementation in British Sikhs?
L.M. Brady, S. Lesauvage, S. Lovegrove, A.M. Minihane, C.M. Williams & J.A. Lovegrove 123A
n-3 PUFA supplementation improves insulin sensitivity in a group of overweight women with an inflammatory phenotype.
L.M. Browning, J.D. Krebs, M.A. O'Connell, G.D. Mishra, & S.A. Jebb 123A
Differences in intestinal glucose absorption, and insulin and GIP secretion in volunteers following consumption of isogenic onions differing in flavonoid contents.
K.L. Johnston, M.N. Clifford, E.W.G. Schylen, C. Kik, A.G. Bovy & L.M. Morgan 124A
Influence of the structure of stearic acid rich triacylglycerols on postprandial chylomicron triacylglycerol composition and structure.
T.A.B. Sanders & S.E.E. Berry 124A
Lack of association between measures of adiposity and fasting triacylglycerol levels in British Sikhs.
J.A. Lovegrove, S.V.M. Lesauvage, S.S. Lovegrove, B.A. Griffin, A.M. Minihane & C.M. Williams 125A

Estimation of the mean intakes of fourteen classes of dietary phenolics in a population of young British women aged 20–30 years.
S.L. Gosnay, J.A. Bishop, S.A. New, J. Catterick & M.N. Clifford 125A
Randomized controlled trial of stanol ester-fortified milk on plasma lipids.
T.A.B. Sanders, K. Gleason, N. Jones & H. Theobald 126A
Changes in phospholipid profiles in response to dietary advice to consume a low-fat or Mediterranean-type diet.
E.K. Lund, M.A. Taylor, L. Rapoport, I.T. Johnson & J. Wardle 126A
Effect of barley b-glucan on plasma cholesterol may depend on apolipoprotein E4 genotype – results from a pilot study.
G. Lietz, J.C. Mathers & C.J. Seal 127A
Influence of dietary α-linolenic acid and fish-oil on markers of cardiovascular risk in subjects with an atherogenic lipoprotein phenotype.
B.A. Griffin, P.A. Wilkinson, C. Leach, N. Hosein, G. Miller & D.J. Millward 127A
Relative rates of long chain conversion of ^{13}C α-linolenic acid in adult men fed high α-linolenic acid or high linoleic acid diets.
N.M. Hussein, P.A. Wilkinson, C. Leach, G.C. Burdge, S.A. Wootton, B.A. Griffin & J.D. Millward 128A
The effect of short-term weight loss on the systemic acute markers of inflammation in the overweight Turkish male.
H.T. Besler 128A
Gastrointestinal handling of vitamin A in cystic fibrosis patients.
P.R. Afolabi, A.L. Cawood, J.M. Jackson, J.L. Murphy, M. Carroll, G. Connett & S.A. Wootton 129A
Diet in the first and third trimesters of pregnancy in relation to babies' weight, ponderal index and head circumference at birth.
S.C. Langley-Evans & A.J. Langley-Evans 129A
Diet and pregnancy outcomes in vegetarian and non-vegetarian women.
S.C. Langley-Evans & A.J. Langley-Evans 130A
Nutrient intake in early pregnancy.
B. Al-Rasasi, J. Coad & J. Morgan 130A
Evidence of increased age-related renal injury in rats exposed to maternal low protein diets *in utero*.
M.C. Marchand, R. Dunn, A. Aihie Sayer, S.C. Langley-Evans & C. Cooper 131A
Fetal ontogeny of mitochondrial abundance for cytochrome *c* and voltage-dependent anion channel (VDAC) in the kidney, liver and lung in the sheep.
D.P. Yakubu, I.W. Seetho, A. Mostyn, J. Dandrea, V. Wilson, M.E. Symonds & T. Stephenson 131A
Comparison of adipose tissue deposition between singleton, twin and triplet lambs at one month of age.
S. Pearce, J. Dandrea, M.E. Symonds & T. Stephenson 132A
Red cell folate status of nulliparous women in the first trimester of pregnancy.
Z.M. Brooke, G.A. Rees & W. Doyle 132A
Thiamin status of nulliparous women in the first trimester of pregnancy and the relationship to birth outcomes.
G.A. Rees, Z.M. Brooke & W. Doyle 133A
Effects of irregular meal pattern on energy expenditure.
H. Farshchi, M.A. Taylor & I.A. Macdonald 133A
Birth and infant characteristics as indicators of atopy in childhood.
L.J. Carrington & S.C. Langley-Evans 134A
Alpha-linolenic acid does not reproduce the effects of the very long chain *n*-3 polyunsaturated fatty acids on fasting blood lipids.
Y.E. Finnegan, A.M. Minihane, E.C. Leigh-Firbank & C.M. Williams 134A

Lymphocytes exposed to oxidized LDL produce mediators which induce an inflammatory response in macrophages.
E. Nova, M.D. Mesa & P. Yaqoob 135A
The second-meal effect for plasma lipids: observations following oesophago-gastro-duodenoscopy (OGD).
M.D. Robertson, M. Parkes, B.F. Warren, K.G. Jackson, D.P. Jewell & K.N. Frayn 135A
Elevated blood cholesterol levels with different measures of body size.
E. Elliott, J.E. Cade, V.J. Burley & D.C. Greenwood 136A
Influence of the apoC3 -2854T>G polymorphism on plasma lipid levels: effect of gender and age.
A.M. Minihane, Y.E. Finnegan, P. Talmud & C.M. Williams 136A
Low selenium status is associated with the development of the pregnancy disease pre-eclampsia in UK women.
M.P. Rayman, P. Bode & C.W.G. Redman 137A
Estimation of haem iron intake from a food frequency questionnaire.
B.A. Bratley, V.J. Burley, D.C. Greenwood, J. Barrett & J.E. Cade 137A
Development of a new cut-off point to distinguish between high-fat and medium-fat consumers using the Dietary Instrument for Nutrition Education questionnaire.
S.L. Jackson, C. Golding, D.C. Greenwood, J.E. Cade & S.E. Hirst 138A
Postnatal ontogeny of insulin-like growth factor (IGF)-II and the receptors for insulin-like growth factor-I and -II in ovine perirenal adipose tissue.
J. Bispham, L. Clarke, M.E. Symonds & T. Stephenson 138A
Substrate metabolism in the hindlimb of fetal sheep during adverse intrauterine conditions and subsequent hypoxaemia.
D.S. Gardner, A.L. Fowden & D.A. Giussani 139A
Changes in food intake in free-living adults after changing to different types of vegetarian diets.
R.L. Reid, A.F. Hackett & D. Billington 139A
An evaluation of a community dental health education project to promote healthy eating.
A.F. Hackett, M. Gibbon & A.K. Mercer 140A
Characteristics of women with high and low eating frequency: dietary analysis of the UK Women's Cohort Study.
V.J. Burley, D.C. Greenwood & J.E. Cade 140A
Tracking of waist circumference and body mass index in young British children.
K.V. Jarrett, H.D. McCarthy, I. Rogers, P.M. Emmett & the Alspac Study Team 141A
The relationship between the nutritional and psychological status of pregnant adolescents and non-adolescents in Brazil.
P.H.C. Rondó, M.R. Souza, F. Nogueira & M. Taga 141A
Development of a dietary assessment tool for children (the PEARS project), for the Department of Health.
J.E. Cade, L. Frear, K. Lawson, D. Greenwood, J.D. Thomas, P. Sahota & M. Rudolf 142A
The impact of social class on a healthy diet: analysis from the UK Women's Cohort Study.
Y. Bravo Vergel, D.C. Greenwood & J.E. Cade 142A
Underlying structure to dietary information from food frequency questionnaires: example from the UK Women's Cohort Study.
D.C. Greenwood, V.J. Burley & J.E. Cade 143A
What are the main sources of fat in supermarket shopping? An analysis of the contribution food groups make to fat purchased at supermarkets and foods eaten at home.
J.K. Ransley, J.K. Donnelly, H. Botham, T.N. Khara, H. Arnot, J.E. Cade & D.C. Greenwood 143A
Differences in food intake of children within separate weight categories.
P. Sahota, J. Cade & M.C.J. Rudolf 144A
Regulation of divalent metal transporter expression by non-haem iron in intestinal epithelial cells.
D.M. Johnson, K.J. Boxall, J.P. Tennant & P.A. Sharp 144A

Mercury in fish is an important source of environmental exposure in Brazil.
J.A. Moreton & C.J. Doré 145A
Effect of fructooligosaccharides, *Bifidobacterium longum* and *Lactobacillus acidophilus* on iron deficiency anaemia recovery in rats.
L.M. Ybarra, M.R. Silva, G. Dias, N.M.B. Costa & C.L.L.F. Ferreira 145A
Dietary phylloquinone (vitamin K_1) intake: comparison between adolescents living in Cambridge and a national British sample.
C.W. Thane, C.J. Prynne, F. Ginty, C. Bolton-Smith, S.J. Stear, S.C. Jones & A. Prentice 146A
The effect of polyphenols on iron availability: a comparison of *in vitro* methods.
Y. Shishikura, P. Kajda and S. Khokhar 146A
Ownership and use of domestic kitchen appliances related to cooking methods and macronutrient intake.
A. Efstathiou 147A
Isoflavones affect antioxidant status *in vitro* but not *in vivo*.
R.M.B. McLaughlin, J.V. Woodside, J. McEneny, M.J. Campbell, A.J.C. Leathem & I.S. Young 147A
A comparison of the effect of soy isoflavonoids and fish oil on cell proliferation, apoptosis and expression of oestrogen receptor α and β in the mammary gland and colon of the rat.
F. Kramer, E.K. Lund, V. Breinholt & I.T. Johnson 148A
Associations between dietary intake and bone mineral density in young British women.
D.J. Pattison, J. Catterick, R.T. Webb, J.A. Bishop, A.D. Woolf & S.A. New 148A
Dietary intake and sources of phylloquinone (vitamin K_1): regional differences in a national sample of British adults.
C.W. Thane & C. Bolton-Smith 149A
A comparison of the estimated vitamin K_1 intake in older people from Cambridge, UK and Shenyang, PR China.
L. Yan, A. O'Neill, B. Zhou, D.C. Greenberg, C.J. Prynne, C. Bolton-Smith & A. Prentice 149A
An evaluation of a brief educational intervention to improve the management of obesity in primary care: the BiO Project.
H. Moore, D. Greenwood, J. Griffiths, M. Henderson, K. Hesketh, S. Woolgar & A. Adamson 150A
Dietary intake in post-myocardial infarction patients: self perception in relation to total fat intake.
W.S. Leslie, D. Connelly, M.E.J. Lean & C.R. Hankey 150A
The Mediterranean diet score: a useful means of evaluating and comparing differing dietary patterns?
C.R. Hankey, V. Dilis, J.A. Scott, W.S. Leslie & M.E.J. Lean 151A
Association of dietary variety with nutrient intake and body mass in women: results from the UK Women's Cohort Study.
J.E. Cade, V.J. Burley & D.C. Greenwood 151A
Interaction between changes in physical access and other factors influencing consumption of fruits and vegetables in a food desert.
D.L. Warm, B.M. Margetts & N. Wrigley 152A
Objectively measured habitual physical activity and inactivity in a representative sample of 3–4-year-old children.
D.M. Jackson, J.J. Reilly, L.A. Kelly, C. Montgomery, S. Grant & J.Y. Paton 154A
Systematic review of exercise and the long-term outcomes of the treatment for obesity.
T.J. Brown, A. Avenell, J. Broom, W.C.S. Smith, R. Jung, M.K. Campbell & A.M. Grant 154A
Seasonal variation in energy metabolism and body composition in Dutch men and women.
G. Plasqui & K.R. Westerterp 155A
Physical activity costs in obese and non-obese adolescents.
S. Lazzer, M. Vermorel, A. Bitar, M. Meyer & Y. Boirie 155A

Energy expenditure is better measured directly than by recall or diaries.
G.W. Horgan, Z. Fuller, L. O'Reilly & J. Stubbs 156A
Lack of short-term energy compensation for imposed exercise in 9–10-year-old girls.
M.S. Moore, C.J. Dodd, J.R. Welsman & N. Armstrong 156A
Does a community-based practical food skills intervention (CookWell) assist dietary change?
K. Valentine, P.J. Longbottom, W.L. Wrieden, A.S. Anderson & E. Dowler 157A
The impact of a community-based practical food skills intervention (CookWell) on assisting dietary change: qualitative findings.
W.L. Wrieden, M. Stead, M. Caraher, P.J. Longbottom, K. Valentine & A.S. Anderson 157A
A Yerba maté based supplement, MetRx BetaPHos, increases postprandial energy expenditure.
Y. Van Gameren, L.V.D. Burgt, R. Raggers & C. Verduyn 158A
The influence of moderate red wine consumption on antioxidant status and on indices of oxidative stress relevant to coronary heart disease in healthy volunteers.
C. Tsang, S. Higgins, G. Duthie, M.E.J. Lean & A. Crozier 158A
Total body water = 7.4 × height cubed: a simple formula to aid quality control and economic tracer use in studies of body composition and total energy expenditure in children and adults.
C. Slater & T. Preston 159A
Association between cognitive restraint and food intake in a sample of Portuguese university students.
P. Moreira, D. Sampaio & M.D.V. Almeida 159A
Changes in total energy expenditure in a representative sample of young children: cross-sectional and longitudinal analysis.
C. Montgomery, L. Kelly, D.M. Jackson, J.J. Reilly, S. Grant & J.Y. Paton 160A
Early regulation of hypothalamic arcuate nucleus CART gene expression by photoperiod in Siberian hamsters.
J.G. Mercer, C. Ellis, K.M. Moar, T.J. Logie, P.J. Morgan & C.L. Adam 160A
The diuretic effect of moderate amounts of ethanol in hydrated and hypohydrated humans.
J.B. Leiper, J. Bremner, J. Burns, S.M. Shirreffs & R.J. Maughan 161A
Association between macronutrient intake in adolescence, maternal background and dietary beliefs.
P.J. Longbottom, A.S. Anderson, A.C. Wilson, J.S. Forsyth & S.A. Greene 161A
Estimated percentage body fat and other anthropometric measurements in patients with chronic fatigue syndrome.
C. Kelly & L. Wood 162A
Assessment of two bio-impedance analysers for measuring body fat composition: effects of biological variation.
M. Ghayour, G. Ferns & A. Taylor 162A
Assessment of two types of dietary advice given by community dietitians in a clinical setting.
S. Drummond, T. Kirk, J. Jackson, J. Hendry, S. Panton & F. Gray 163A
'Healthy Helpings': helping patients to control their weight.
L. Davidson, M.H. Reid & M.G. Awramenko 163A
The evaluation of a hand-held computerised visual analogue scale rating system for appetite.
E. Crawford, J.R. Stephen, S. Whybrow & R.J. Stubbs 164A
The effects of cage size and activity on mice selected long-term divergently on fatness.
L. Bünger & V. Cvejanovic 164A
The effect of different types of exercise on urinary testosterone levels.
E.A.S. Al-Dujaili, M. Carboni & A. deLooy 165A
Ovine model of obesity: evidence for seasonal and dose-dependent changes in hypothalamic sensitivity to leptin.
C.L. Adam, P.A. Findlay, M.A. Morrison, N. Raver & D.W. Miller 165A
Effects of 7 days of detraining on serum leptin and hunger-satiety measures in endurance-trained men.
F. Tsofliou, D. Malkova, C. McAllister, Y.P. Pitsiladis, M. Wallace, M.E.J. Lean & J.M.R. Gill 166A


Alterations in nutrient partitioning: a consequence of a high-energy (HE) diet.
Z.A. Archer, D.V. Rayner & J.G. Mercer 166A
Insulin resistance and environmental risk factors in females with high and low risk of developing type-2 diabetes.
S. Higgins, J.M.R. Gill, R. Janilionyte, M.J. Caslake, C.J. Packard, M.E.J. Lean & D. Malkova 167A
Metabolic response to short-term overfeeding.
A.M.C.P. Joosen, A.H.F. Bakker & K.R. Westerterp 167A
Anti-obesity effect of *Dioscorea nipponica* Makino powder in rats.
C.-S. Kwon, S.-H. Kim, J.H. Kim, K.H. Son & J.-S. Kim 168A
Weight gain in perimenopausal and early postmenopausal women: a result of decrease in physical activity level rather than change in dietary energy intake?
H.M. Macdonald, S.A. New & D.M. Reid 168A
Health and lifestyle variables that predict body mass index and body fat distribution in a nationally representative sample of Irish adults.
S.N. McCarthy, P. Robson, A. Flynn & M.J. Gibney 169A
Moderate and vigorous physical activity may benefit the metabolic syndrome cluster of cardiovascular risk factors.
K.L. Rennie, N. McCarthy, S. Yazdgerdi, J.N. Morris, M. Hillsdon, M. Marmot & E. Brunner 169A
Physical activity and energy expenditure during army basic training.
M.P. Rayson, D.A. Wilkinson, E. Valk & A.M. Nevill 170A
